

## Lab 2 – Worth 50 points

### Introduction

This lab will have you write some CSS rules in order to make the provided HTML look like the sample HTML in the assignment files.

### Requirements

- Unzip the Lab2.zip file and add all the files to your GitHub repository.
- Make sure to keep all the files in the same relative locations so the CSS and images work
- Follow the directions in the index.html page for each section so that you make the provided HTML look like the example.
- **Do Not make any edits to the index.html page other than adding your name where it instructs you to.**
- **Do Not make any edits to the global.css file.**
- Place all your CSS edits in the styles.css file. You should not add any selectors. Just add the properties you need to the selectors already provided.
- Publish your finished work to GitHub and GitHub Pages
- You may add this as a section in your lab1 repository or use a new repository.
- Create a new directory for Lab 2 to not over write Lab 1 assignment.
- Test the GitHub Pages URL in your browser to ensure it all works before you submit
- **Submit your GitHub URLs** to the Canvas assignment in the text field as described in the submissions section below.

### Graduate Additional Requirements

If you are involved in **any section of 541** you need to complete the additional requirements listed here.

Graduate students will be graded to a higher standard for this assignment.

### README File

Not specifically required for this Lab but please create a README file as part of your repository creation for future use.

### Due Date

This assignment is due **Thursday, October 3<sup>rd</sup> noon Chicago Time, before class. We will discuss it in the next class. No Extensions or Exceptions since we will discuss the solution at the beginning of class.**

### Submission Guidelines

You must upload your submission, to the Canvas assignment by the due date. The submission must be in the following format and structure. **If you do not submit your assignment exactly as specified, you will receive an immediate 10% deduction.**

### Submission Specifications

Two URLs: Submit to the Canvas assignment the URLs to your GitHub repository and GitHub Pages hosted Lab index page.
